Perhaps you'd like something else for your event or you have a vision you'd like to create. The sky is the limit! Send us an email to talk about creating, we're always up for a design challenge.

We use only design techniques that limit waste. No traditional, non-biodegradable floral forms are used in our work. All our floral mechanics are biodegradable or reusable, thus our creations have a different look and feel to those made using single use foams.

Thanks for supporting our local and sustainable small business.
